

Rockwell Collins Deutschland GmbH

Rockwell Collins Deutschland GmbH is part of Collins Aerospace and belongs to the RTX Group.

The company has been developing and manufacturing aviation subsystems in Germany for over 50 years.

Our company headquarters in Heidelberg has the following core competencies:

- Avionics systems
- On-board electronics for land vehicles
- Products for the aerospace industry

We have established ourselves as a leading supplier of customized electronics solutions for the aerospace and defense industries. Rockwell Collins Deutschland GmbH supplies integrated navigation and communication systems for a wide range of military applications and is a world leader in satellite reaction wheel technology.

We offer comprehensive life cycle support, including repair and overhaul, modification, customer service, material management, documentation and training.
