

## Schüsckhe GmbH & Co. KG

### Made by Schüsckhe

The world-wide active Schüsckhe Group, located in Kirchentellinsfurt, is a processing company for products made of the solid surface material Varicor®. For the past 31 years the group has manufactured customized products for the aerospace industry, commercial public sanitation sector and housings for medical technology.

Schüsckhe specializes in the development and manufacture of washbasins for the civil aviation industry. The products are characterized by the highest stability and the greatest durability.

The group is a First-Level-Supplier and Original Equipment Manufacturer (OEM). Schüsckhe offers turnkey solutions for all requirements: For fitting out lavatories in First Class, Business Class or Economy Class, the highest levels of craftsmanship and technical expertise are combined. The continuous new and further development of products is a part of the firm's philosophy.
