

Spherea GmbH

The Spherea Group is the leading company in Europe for the development of customised electronic test systems. Our international customers recognise our high-tech products for safety-critical applications. With more than 600 highly qualified employees, the company generates an annual turnover of over 120 million euros. Spherea is on course for growth and is constantly developing new markets and target groups. Spherea's German entity focuses on the defence and rail transport markets.
